Re: Notice of Additional “Triggering Events” Requiring Disclosure of Evidenced Asset Value Deprecation, Pursuant to GAAP ASC 350/360 and Regulation S-X – EchoStar Corporation (the “**Company**” or “**EchoStar**”)

Ladies and Gentlemen of the EchoStar Board of Directors (the “**Board**”):

The Buxton Helmsley Group, Inc. (“**BHG**” or “**we**”) addresses the Board to formally notice you that additional “triggering events” have occurred since our public letter issued February 5, 2024 (the “**February 5 Letter**”). We provide such public and formal notice, given the Company’s apparent failure to disclose the evidenced effects of such “triggering events” for years now, as thoroughly discussed in not only our more recent February 5 Letter but also our initial public letter issued on January 22, 2024 (the “**January 22 Letter**”).¹

On February 12, 2024, the Company announced the termination of its remaining debt exchange offers (the “**February 12 Announcement**”). Such an evidenced lack of capital market access (evidentially amplifying the already apparent negative transactional leverage of the Company) is a direct “triggering event” under the Generally Accepted Accounting Principles (“**GAAP**”) codified at ASC 350/360. The adverse material effects of that “triggering event” on the Company’s financial position have been evidenced in substantial market value declines for the Company’s issued securities since the February 12 Announcement. The Company’s disclosures of the adverse effects of that “triggering event” within its financial statements should be equally material, especially given the apparent financially-strapped position of the Company, as has even been discussed publicly – in the past days – by at least one sell-side

Wall Street analyst covering the Company.² The February 12 Announcement further supports the validity of BHG's allegations of evidenced, concealed net asset insolvency occurring at EchoStar (the apparent accounting and securities fraud).

The Company cannot wait to disclose the evidentially enormous amount of asset value depreciation (which is evidenced to have snowballed while remaining undisclosed, as thoroughly discussed in the January 22 Letter and February 5 Letter) until the Company could (in our opinion, very likely) soon wind up in a bankruptcy court. As previously discussed, such a failure to publicly disclose until the commencement of bankruptcy proceedings would be apparent accounting and securities fraud, in violation of GAAP and Regulation S-X, given the Company's continued failure to address (within financial statements) the "triggering events" it has been experiencing for years (the effects of those "triggering events" further evidenced by the February 12 Announcement).

If the Company is unable to file its Form 10-K with the U.S. Securities and Exchange Commission (the "SEC") by the statutory deadline, it should – pursuant to its obligation under 17 CFR § 240.12b-25 – file a notice with the SEC as to such inability to timely file all or any required portion of a Form 10-K.

We look forward to watching further actions of the Company and developments in this situation increasingly affirm the apparent accounting and securities fraud occurring at the Company, as thoroughly discussed in our January 22 Letter and February 5 Letter.

Very Truly Yours,
